PACIV

A GLOBAL LEADER  
IN INDUSTRIAL AUTOMATION  
SOLUTIONS

## PACIV IS A LEADING CONTROL SYSTEM ENGINEERING FIRM FOUNDED IN 1997

OUR PRIMARY FUNCTION IS TO PROVIDE UNPARALLELED CONTROL SYSTEMS, INSTRUMENTATION, AND REGULATORY COMPLIANCE SERVICES TO THE BIOTECHNOLOGY, PHARMACEUTICAL, MEDICAL DEVICE, WATER/WASTEWATER, FOOD AND BEVERAGE, ENERGY, AND OTHER PROCESS INDUSTRIES WORLDWIDE IN A COST-EFFECTIVE MANNER.

- **PACIV's** differentiation is our unique combination of technical expertise unparalleled customer service and trusted brand. Our powerful combination of automation and instrumentation knowledge with regulatory compliance experience makes us a compelling value proposition to deliver our clients process control and instrumentation needs.
- Our industrial automation solutions enhance our clients' manufacturing facilities productivity at the same time it maximizes the utilization of their assets. Our thorough understanding of the challenges faced by the Life Science sector and our collaborative approach with our clients has enabled us to become a global leader in Life Sciences industrial automation and regulatory compliance service solutions.
- We hold Master Service Agreements (MSAs) and Preferred Vendor status with the world's leading Biopharmaceutical companies which serves as testimony of our quality of service and leadership standing within the Life Science industry.
- We attract and develop some of the best talent – our factory-trained and certified engineers get projects conceptualized, designed, built, configured, installed and commissioned quickly. We are also available for operational support, maintenance support, and site services such as outsourcing services, staff augmentation and/or emergency calls.

## INDUSTRIAL CONTROL PANEL SHOP

PACIV WILL DESIGN AND FABRICATE ANY TYPE OF INDUSTRIAL PANEL TO FULFILL OUR CLIENTS' CONTROL SYSTEM AND COMMUNICATION NEEDS. OUR PANELS ARE FABRICATED AS PER CLIENT'S REQUIREMENTS AND CAN ACCOMMODATE ANY TYPE OF PROCESS AREA CLASSIFICATION.

Our industrial panels can be designed as Main Control, Extended/ Remote I/O, Power Distribution, Network Cabinets or any other manufacturing application-type panels to satisfy the client's project needs. We procure all materials in-house required to fabricate the panels, perform and document all check-out/testing (FAT), and provide panel installation and field wiring termination as required at the site.

In addition to new panel fabrication, we can also retrofit existing panels in the field to ensure the most up-to-date and current PLC, HMI, and Network versions and solutions are being utilized.

All our industrial control panels are designed and fabricated in our UL508A Listed industrial control panel shop based out of our PACIV office in Indianapolis, IN.

### OUR INDUSTRIAL CONTROL PANEL SHOP SERVICES

- Generation of Control Panel Engineering Design and Specifications, including Panel Layout and Electrical and Wiring Schematic Drawings
- Fabrication of new PLC/DCS and Power Distribution Panels (Low/High Voltage, VFD/Motor Control, etc.)
- Network Communication Technologies (i.e. Industrial Ethernet, Radio, 4G, ControlNet, DeviceNet, Serial, etc.)
- Procurement of Panel Hardware, Software, and Components
- Programming and Configuration of PLC and HMI Systems widely used across global manufacturing platforms (i.e. Rockwell, DeltaV, Omron, Siemens, Etc.)
- Panel Commissioning Services
- UL508A Standards Conformance and Panel UL Certification/Labeling
- Delivery to Client Site and Start-up Testing (Field I/O, Loop Check, Software/Network/VFD Configuration, etc.)

PACIV-USA office  
is approved as a  
UL508A listed shop.
